(OPEN)

## **MANITOBA LIVE ANIMAL SHOW**

1. Entries will be accepted by the Secretary of the show up to and including November 10, 1942, or until the capacity of the accommodation has been reached. After such time entries received will be returned with entry fees attached.

2. All animals must be in their places in the building by 10 a.m. Thursday, November 12, at which time Classification of Foxes will take place, and judging will commence immediately after.

3. All specimens must be the bona fide property of the exhibitor for at least six months prior to the date of the Show, otherwise the name of the Breeder must be stated.

4. The entrance fee for all classes of animals is 50 cents, and must accompany each application for entry.

5. All animals entered and accepted for exhibition must be shown on the table in the show ring. Exhibitors refusing, for any cause not meeting with the approval of the executive, will forfeit all prizes.

6. No male animal that has been castrated will be allowed to be exhibited.

7. Regardless of the number of entries in any one class no animal will be awarded a prize if not considered worthy by the judge or judges, and the judge may award merit ribbons at his discretion.

---

**A Fur Breeders' Banquet will be held on Friday, November 13th, where the Championship Cups will be presented to the winners.**

## RULES AND REGULATIONS – continued

8. All arrangements will be made to have food supplies in the building but each exhibitor will be required to feed and care for his own animals and to observe the sanitary regulations laid down by the veterinary officer in charge. Animals belonging to exhibitors not present will be fed and cared for by the Show Superintendent upon request.

9. All animals must be in a healthy condition and after arrival in Dauphin will be inspected by veterinary surgeons before being allowed in the show building. Animals from outside Manitoba must be accompanied by a health certificate signed by a veterinary surgeon.

10. The decision of the judges shall in all cases be final.

11. Suitable pens for all animals will be provided by the Association free of charge.

12. All Foxes must be tattoo marked for identification.

13. All animals shall be judged by comparison.

14. The Show Executive will not be responsible for any loss or damage to animals for any cause whatsoever.

15. An exhibitor may enter any number of animals in each class.

16. The decision of the judging committee in all matters shall be final, even to the extent of disqualification.

17. In classifying animals, decisions will be made for appearance of fur in natural position.

18. All entries must be approved by the Senior Health Officer.

19. All animals entered must not be removed from the show building until 6.00 p.m. Saturday, November 13th, except with the permission of the Show Executive.

### SIL VER BLU Platinum Mink

As prices for regular dark Mink are now low why not build for the future by adding a trio of Platinum from the original herd of "Whittingham" strain Platinum Mink.

# Here's Double Proof of Rex Oil's Efficiency!

Read what two leading fur breeders say about their success with Rex Wheat Germ Oil.

★

Dear Sirs:

We used your Wheat Germ Oil on our Silver Fox Farm last year, and we are pleased to report that our production this season is the best we have had in our thirteen years of ranching—539 pups from 131 females wintered. Up to the present our losses have been very slight, and our animals are all in excellent condition.

To what extent your product contributed to this splendid result, we, of course, are not in a position to say: we have, however, quite decided to use it again this year.

Yours truly,

Thunder Bay Fox Farms Limited  
Per J. E. CRAWFORD, Secy.

★

Gentlemen:

Our ranch has been very fortunate during the past number of years in maintaining a good average production. We have been consistent users of Rex Wheat Germ Oil, supplemented with Cod Liver Oil, using half of the recommended quantity of Wheat Germ Oil as one part and four parts Cod Liver Oil. This formula is fed from early in December until after weaning time, when Wheat Germ Oil is discontinued. From 343 females, we had 1338 pups as of June 1st count this year. Kit losses showed a marked decrease each year since this formula was adopted.

Yours very truly,

J. E. CONNOLLY, President,  
Bathurst Northern Mink Fur Farms Ltd.

## **VITAMIN REX WHEAT GERM OIL** **CAN HELP YOUR ANIMALS, TOO!**

If you want results like these on **your** ranch just add a few drops of Rex Wheat Germ Oil to your present feeding ration. Rex Oil contains ALPHATOCOPHEROL (the anti-sterility vitamin). That is why it is so valuable in helping correct the following breeding troubles:

- False or absence of heat period. ● Fighting and resentment to service.
- Slow mating. ● Reduced fertility. ● Resorption of young. ● Frequent misses.
- Abortion. ● Poor lactation. ● Small litters. ● High mortality.

Other important ingredients in Rex Oil help to give you the kind of pelts you want! Yet Rex Oil is easy to feed, and economical, costing only a few cents per animal per season. Get a can today from your rural druggist, fox and mink supply dealer, or feed store.

WRITE FOR  
**Free Booklet!**

Containing case histories showing how Rex Oil is solving breeding problems for other top-ranking Canadian ranchers; also an article by Lt.-Col. D. A. MacKinnon, well-known author and breeder, on "What Lies Ahead For the Fur Breeder in 1943."
